

The AUDIOBARN

home cinema + smart home

ABOUT US

At The Audiobarn we pride ourselves on providing Home Cinema, Multi Room Audio Visual, Hi-Fi and Smart Home solutions with the highest level of service and performance in the market.

Our team includes Project Management, in-house interior design, skilled craftsmen and bespoke joinery supply chain. With our team, we create bespoke immersive cinematic experiences for our clients' homes - from a simple 5.1 system in a Living Room to a dedicated fully functioning Atmos Home Theatre.

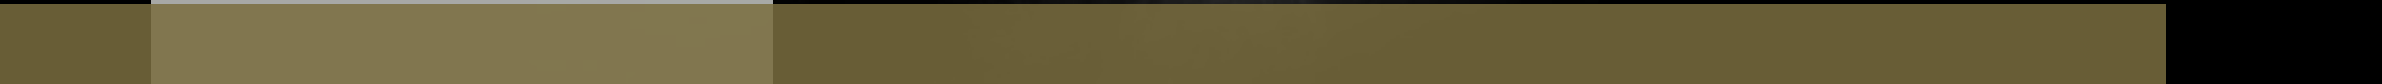

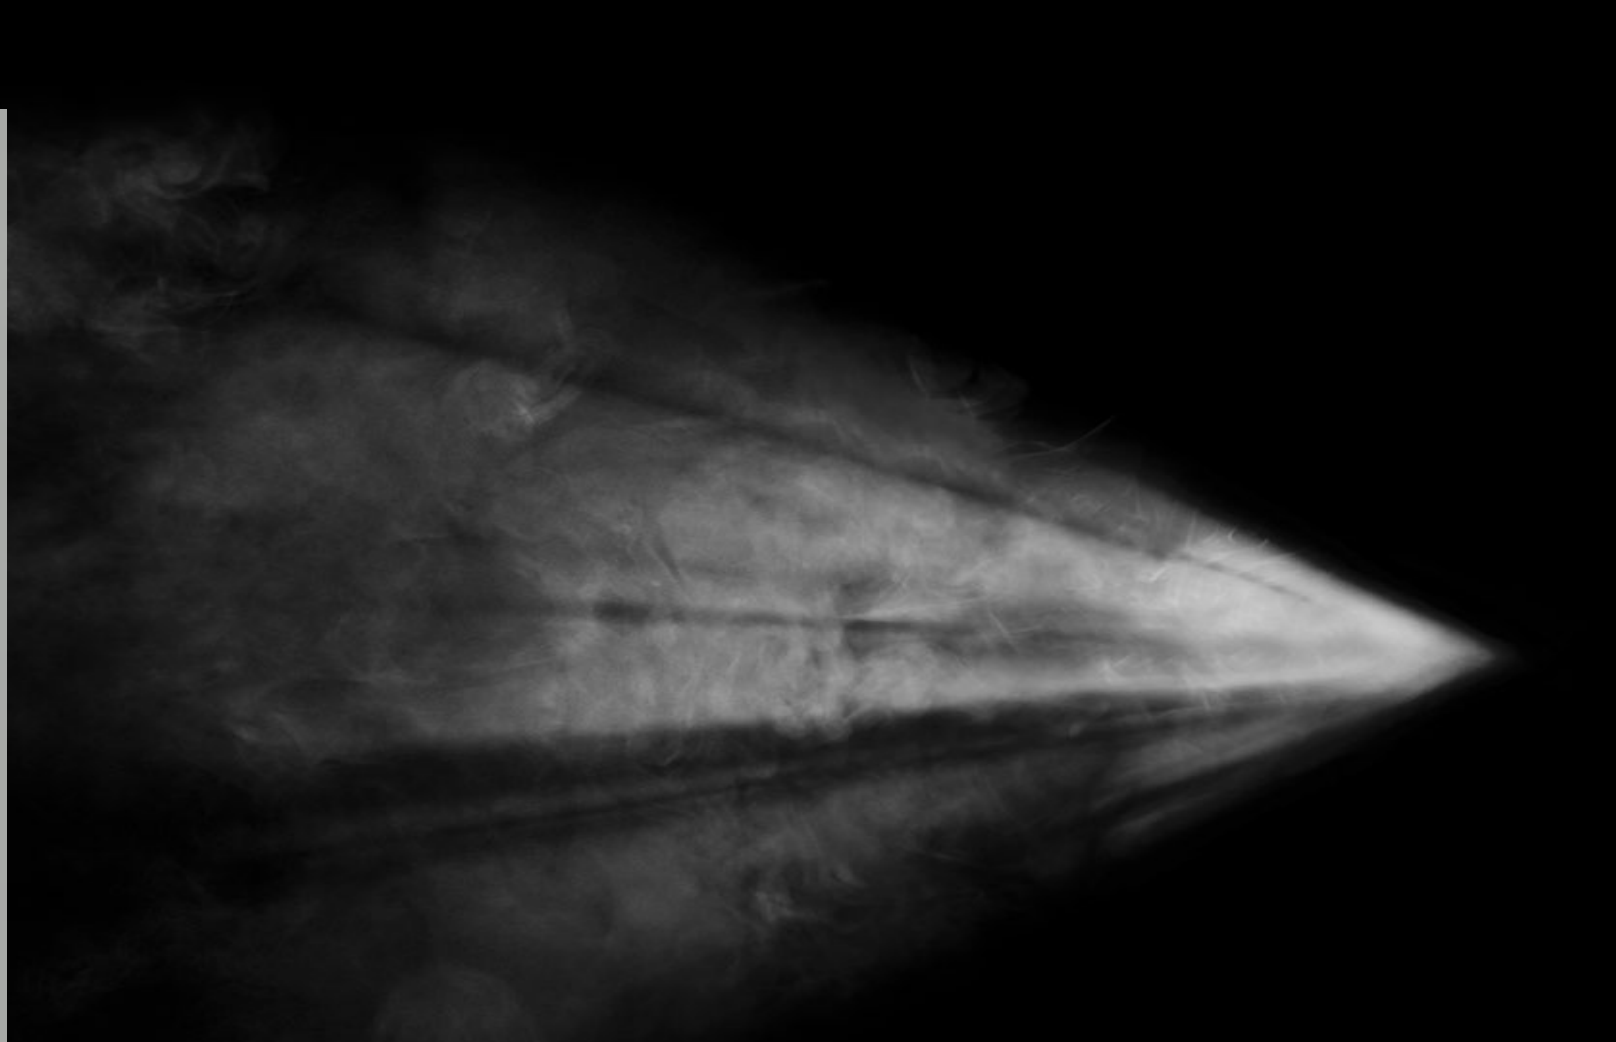

Get in touch to arrange a visit to our demonstration room to see and hear how we achieve reference quality home cinema.

The **AUDIOBARN**

OUR SERVICES

We offer a full range of services for our clients for them to choose from, in order to fit their specific requirements, including:

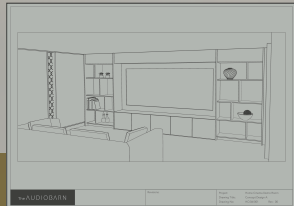

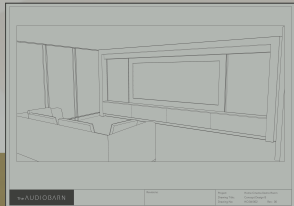

- ◆ Complete Cinema Room
- ◆ Multi Room Audio & Visual
- ◆ Smart Home
- ◆ Lighting Control
- ◆ Whole Home Networking
- ◆ Interior Design
- ◆ Project Management
- ◆ Co-ordination with client contractors
- ◆ Calibration and Training
- ◆ After sales support
- ◆ Maintenance

INTERIOR DESIGN

With our in-house interior designer, we take our clients through three key stages of the design development over a series of workshops and design packs. We'll start with deciding on the best layout of the room for performance and practical purposes, then we'll progress onto the mood images stage to understand what our client would achieve through various different styles.

Once we have a draft layout and mood style progressed, we will start preparing the CGI's, detail design drawings and samples to be signed off by the client.

Taking care of your project from
concept stage to handover

PROJECT DELIVERY

Project Management

The key to successful project delivery, is forward planning and strategic implementation of the process. Our Project Management takes care of all of this for our clients, to ensure the project is undertaken in the most efficient and professional manner, so that the client doesn't have to get involved in the day to day activities and have confidence the project is in very safe hands.

Co-ordination with Client Contractors

On many projects, our clients are incorporating a cinema room and multi room Audio Visual within their ongoing home refurbishment. In these instances, our Project Management will work with the contractors, to ensure a fully co-ordinated installation is undertaken.

Installation

Our team of skilled craftsmen take great care and pride in installing our clients' projects to the highest standard. We carefully manage the installation process, working to the agreed time schedule programme, keeping the client regularly updated as we proceed with site inspections and reports.

Calibration and Training

Upon completion, we undertake the calibration of the audio and visual system. With calibrated equipment, we take numerous readings from around the rooms and carefully adjust outputs to ensure the system operates at it's full potential. Before handover of the project, we provide full training for the client on their new home systems.

THE EQUIPMENT

Through our approved supply chain, we can specify and install equipment from the market leaders in the audio visual and Smart Home sector. We have taken great care in deciding on our core brand partners in order to provide only the best equipment for our clients' new cinema room and homes, including:

- ◆ Projectors
- ◆ Audio Processors and Amplification
- ◆ Projection Screens
- ◆ AV Racks
- ◆ Custom Install Speakers
- ◆ Digital Movie Servers
- ◆ Free-standing Speaker Systems
- ◆ Blu Ray Players
- ◆ Subwoofers
- ◆ Power Distribution
- ◆ Smart Home Controls
- ◆ Lighting Control
- ◆ Whole Home Network
- ◆ Multi Room Audio Control

The highest quality equipment to provide
a truly cinematic experience

THE WORKS

Home Cinema Equipment

Together with the installation of the equipment for your new home cinema, we also offer the following complementing services, to provide a full turn-key solution for your home project:

Bespoke Joinery Manufacture

All of our joinery is manufactured by our local supply chain partner in their large state of the art factory. Care and trial projects were undertaken when selecting our manufacturing partner to ensure our high level of quality is secured. We would welcome the opportunity for our clients to visit our partner with us during manufacture, for them to see their joinery being manufactured and the care taken by the skilled craftsmen.

Cinema Fittings, Finishes and Furniture

Our services include the soft finishes and furnishings for the room, including stretched fabric walls, carpets and cinema seating.

Lighting

Our accredited electrical partner understands our very high standards and provides you with a professional installation that achieves the design concept.

Cinema Room & Smart Home Control

How the completed cinema room and your home is controlled is extremely important, as this will be the interface for enjoying the use of the rooms. We install fully customised touchscreen controllers to the client's exact requirements. We will hold a workshop with the client to design the button use and programme the automated actions, so that everything comes together exactly as the client wants, with one touch of a button.

Multi-room Audio and Visual

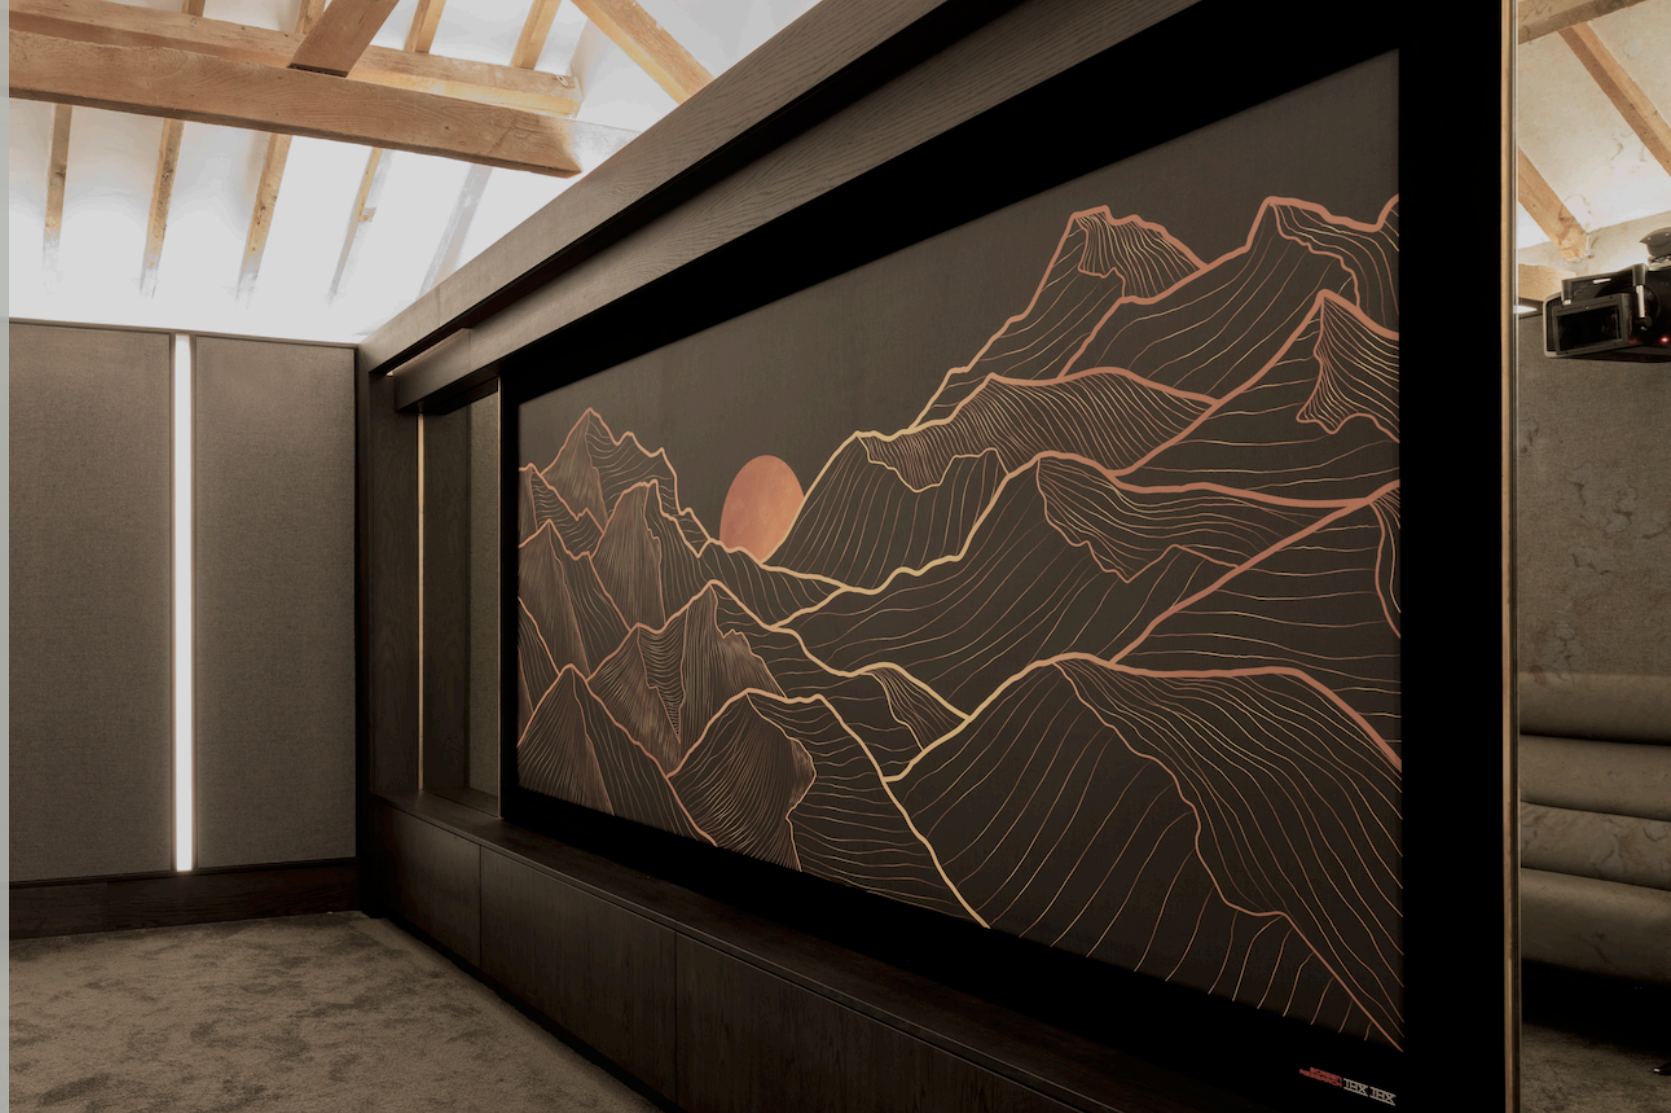

We offer multi room whole home music systems and TV distribution, with a tailored design specific to our client's requirements.

OUR SHOWROOM

Our dedicated Home Theatre Showroom, includes two high grade fully concealed systems for different project types. Our projector and screen demonstrate the high quality visual that can be achieved, including the Masking Projector Screen which is a fantastic feature to enable multi-use of the cinema room and is very popular with our clients.

Our showroom includes our bespoke designed joinery, stretched fabric walls, feature lighting and automated touchscreen control.

We have designed our showroom so that we can also demonstrate our range of free-standing speakers for clients who prefer the more Hi-Fi based system.

Our showroom in Cinema Mode

Automated lighting changes to blue cinematic hue ready for movie watching before all lights go out as the film begins

Our showroom in Living Room Mode

Watching a movie in our showroom

OUR PORTFOLIO

Our extensive experience spreads across home cinema, smart home installations and whole home audio visual
