

Clear Reflection Headphone cable

Performance

Clear Reflection HPC builds upon the successes from the more expensive dual mono geometry of Clear HPC. Matched Propagation conductors help to achieve very well balanced performance. Completely neutral and highly dynamic, a great match for virtually any headphone. Better detail, improved dynamics, and available with virtually any headphone connector on the market.

Standard Termination: There are too many options available to list them all. Please contact us to learn about the newest additions to our large selection of headphone terminations.

Design/Construction

Conductors: Matched Propagation Kevlar core, Grade 1, 99.9999% pure oxygen free copper with SPN clear coat (Litz), gauge sizes scaled to Golden Ratio proportions. Cross-field layer geometry, insulated in an PTFE tape wrapped jacket.

Geometry: Concentrically wound two conductor flanked by anti-static fibers. Braided nylon outer jacket.

Gauge: 8x25.5 AWG

Outside Diameter: 0.180"/4.57mm
